PARKEVILLE HYDROPATAIC INSTITUTE.

AT a meeting of the Board of Managers of the Parket ville Hydropathic Institute, held fifth month 15th, 1850. Joseph & Weder, M. D., was unanimously elected Rendent Physician in the place of Dr. Dexter, resigned. Having made various improvements, this institute is now prepared to receive an additional number of patients; and from Dr. Weder's well-known skill and practical experience in Europe, (acquired under Vincenz Preissnitz, the founder of the Hydropathic system.) and for several years past in this country, and particularly in the city of Philadelphia, (where he has had many patients.) the Managers believe the efflicted will find him an able and an attentive physician. The domestic department being under the charge of a eward and Matron, will enable the Doctor to devote to

patients whatever time may be necessary. Application for admission to be made to SAMUEL WEBB, Secretary.

Office No. 58 South Fourth street, residence No. 16 Lean square, Philadelphia. gan square, Philadelphia.

General Description of the Purkeville Hydropathic Institute.

The main building is three stories high, standing back
from the street about one hundred feet, with a semicircular grass plot in front, and contains thirty to forty rooms. lar grass plot in front, and contains tally to forty rooms. The grounds around the house are testefully laid out with walks and planted with trees, shrubs, &c. On the left of the entrance to these grounds is a cottage containing four rooms, used by male patients as a bething house, with every convenience for "packing," bathing, &c.; on the right of the entrance, about two hundred feet distant, stands a similar cottage, used by the ladies for similar purposes.

In the rear of the Institute, at the distance of one hun-In the rear of the institute, at the distance of one number of set, are three other cottages, some eighty feet apart. One of these is the laundry, with a hydraut at the door; the other two are occupied by the servants.

The hydrant water is introduced into these cottages as well as into the main building, and all the waste water

Consist of a circular stone building, standing on the brow of a fill, surmounted by a large cedar reservoir containing five hundred barrels, brought from a never-failing spring of pure cold water in the side of the hill, by "a hydraulic ram," a self-acting machine of cast iron, that is kept constantly going, night and day, by the descent of the water from the spring. The surplus water is carried from the reservoir to a fountain in the water-works yard, surrounded by weeping willows. In the first story of the water-works is a circular room, containing the douche bath, which is a stream failing from a height of about thirty feet, and can be varied in size from half an inch to an inch and a half in diameter. Adjoining the douche room is a dressing room, with marble tables, &c.; the rising douche (for the cure of piles, &c.) is one of the most complete contrivances of the kind, being entirely under the control of the patient using the same.

There are many other appliances, which can be better understood by a personal examination.

MERICAN GIFT BOOKS FOR 1851.—Agents are wanted to circulate the following new and beautiful works, (retail price, \$2 50 per vol.) A new and complete PICTORIAL HISTORY OF CHINA AND INDIA;

PICTORIAL HISTORY OF CHINA AND INDIA; with a descriptive account of those countries and their inhabitants, from the earliest period of authentic history to the present time. In which the editor has treated not only of the historical events, but also of the manners, customs, religion, literature, and domestic habits of the people of those immense empires.

The embellishments are about two hundred, and of the first order, illustrating whatever is peculiar to the inhabitants, regarding their dress, demestic occupations, their mode of agriculture, commercial pursuits, arts, &c. They are accurate, and each one has been made expressly for the work.

The volume forms a large octavo, containing between five and six hundred pages, printed in the best style, and on good substantial white paper. It is furnished to agents, handsomely bound in mushin, gilt, or leather, as the purchaser may prefer, at a very liberal discount, when quantities of not less than twenty copies are ordered at one time.

price, \$2 50 per volume. Orders respectfully solicited.

SEARS' PICTORIAL FAMILY PUBLICATIONS
are decidedly the best books that agents can possibly employ their time in supplying to the people of the United States. They are valuable for reference, and should be possessed by every family in this great republic. There is not a city or town in these United States, not even those of small importance, but contains many citizens to whom these works are indispensable. They are adapted to the literary wants of the Christian, the patriot, the statesman, and the domestic circle, got up in a superior style of art and workmanship; and are not only such books as will sell, but are such as an agent of good principle will feel free to recommend, and willing to see the purchaser again after they have been bought.

Our Plan—The plan the publisher has so successfully carried out for several years, is the obtaining responsible men as agents, who are well known in their own counties, towns, and villages, and have time and disposition to circulate good and instructive books among their neighbors and friends. Any person wishing to embark in the enterprise will risk little in sending \$25 or \$50, for which he will receive an assortment as he may direct, at the wholesale cash prices.

Enterprising and active men of respectability and good address, would do well to engage in the sale of the above volumes; and all postmasters, clergymen, book pediars, and newspaper agents, are respectfully requested to act as our agents. A handsome remuneration allowed to all who engage in their sale. For particulars address, post paid, ROBERT SEARS, 128 Nassan street, N. Y.

Office, No. 1 Reade Street, New 1978.

In consequence of the great number of complaints which have for a long time been made by Emigrants, of frauds committed upon them in the sending of money to their friends in Ireland, and to aid and protect the Emigrant, the Irish Emigrant Society established a fund, deposited in the Bank of Ireland, upon which they draw drafts, psyable at sight, at any of the branches of the Bank.

Persons residing out of the city, by enclosing in a letter the sum they wish forwarded, with the plainly written direction to whom and where it is to be paid, will have the same remitted.

some remitted.

There is a great advantage in purchasing the Society's drafts—that the Bank has a branch in each of the principal towns in Ireland, and thus the losses by discount, and otherwise, are avoided.

The Society keeps an office at No. 22 Spruce street, to which Emigrants can apply to obtain situations for which they are fitted.

She was born in a cot—in a castle she died,— But her being was clouded and lone, Since she stood at the altar an Earl's haughty bride, And broke the heart truly her own. Young Edwy was fond-but her Edwy was poor While the Laird of Glenarr was a knight; Young Edwy could ope but a cottager's door, While the Laird offered splendor and might.

Soon he wearied of her he had wedded to grace The tourney, the banquet, and show, When the charm of content had forsaken her face, And her footsteps were feeble and slow. How she longed for the cot near the wild-mountain cliff, And the sunny flood dancing along; How she thought of each time in the favorite skiff,

The Laird of Glenarr, then, was vengeful and proud,
As he marked the pale cheek of his bride;
By the cross at the hilt of his falchion he vowed, To her lover should evil betide; And scarce had the sun, in its vapor of wrath Gone down from the gloom of the sky, Ere the white stars looked out on the murder-sta

WASHINGTON, August 25th, 1850.

ARREST OF THE ALLEGED CUBAN CON-SPIRATORS IN NEW YORK.

At an early hour yesterday, Mr. Tallmadge, the United States Marshal, assisted by his efficient deputies, Messrs. Tallmadge, Thompson, Brown, Rakielewitz, and Walsh, were busily en-gaged in the arrangement of plans to effect the arrest of the alleged ringleaders of the Cuban expedition, the facts of which we have previously alluded to; but in order to obtain the correct information as to whom the parties were, said to be engaged in this enterprise, it was found expedient to adopt a method by which it could be ascertained with certainty; and in order to effect that object, Deputy Rakielewitz disguised himself as one of the emigrant Germans, and proceeded to South Amboy, and there mingled among the men who were congregated in that vicinity, ready for the embarkation. On conversing in German with these men, the officer oon ascertained the names of certain persons in New York, who were said to be the leading parties in the contemplated invasion.

Accordingly, five of these men were taken by an invitation given by the officer, and conveyed before Mr. Nelson, the United States Commissioner, before whom certain affidavits were preferred, and warrants issued for the following

named persons: John L. O'Sullivan, (son-in-law of Dr. J. Kearney Rogers.) William T. Rogers, jr., (nephew of the said Dr. Rogers,) Captain Lewis, captain of the steamboat Cleopatra, and formerly captain of the Creole, in the former expension dition; Major Louis Schlessinger, one of the Hungarian patriots; Dr. Daniel H. Burtnett, an old resident of this city; Pedro Sanchez, a

Spaniard of some note in this vicinity. dsy and evening, the last arrest being made about eight o'clock. The charge alleged against sition it is calculated that 1556 days, or more them, in substance, as set forth in the warrant than four years, will be necessary for the comof arrest, read as follows:

"That the above named parties, by themselves, and in conjunction with others, at the city of New York, in the southern district of New York, did provide and prepare the means for a military expedition or enterprise, to be carried on from the said United States against the territory or dominion of Her Majesty the Queen of Spain, with whom the said United States are at peace, and more particularly against the island of Cuba, in the possession of such territory and dominion of the Queen of Spain aforesaid, contrary to the contract of the sixth section of the neutrality act of the 29th of

The parties above named, as arrested, were at once conveyed before the marshal, where they were detained, and Commissioner Nelson sent for to adjudicate on the matter; but after waiting for some two or three hours, the messenger returned, saying that the Commissioner could not be found

A messenger was then despatched for Commissioner Bridgham, who forthwith attended. The charge was then presented before him by Mr. Everts, the district attorney, and the prisoners were held to bail each in the sum of \$3,000, to answer the charge at court. Dr. Rogers, who had been sent for, then entered into the required bonds for the appearance of Mr. O'Sullivan and his nephew William T. Rogers, and a Mr. Freeman became surety for Pedro Sanchez.

Dr. Burtnett was allowed to depart in the custody of the Deputy Marshal until Monday, and Captain Lewis and Major Schlessinger were committed to jail in default of bail. During the day, the Marshal applied for a detachment of marines to take charge of the steamboat leopatra. Commodore Salters forthwith granted the request. A detachment was forwarded, and the vessel is now under their charge, lying at the foot of North Moore street. [Sunday Herald.

To SLEEP TO DIE .- Never was there a more practical and terrible application of Hamlet's nemorable doubting, questioning, life-or-death soliloquy, than in the case of the three negroes in Texas, two of whom-a man and his wifewere lately found by a return party of the Mexican boundary commission in a state of starva-tion, having killed and nearly devoured their comrade. The Lavaca paper says they had lived for many weeks on roots and such things as they could pick up, but finally became so nearly famished with hunger that one of the men proposed that they should cast lots to see which of the three should be killed and eaten by the others; but Henry would not agree that his wife should cast lots, for if it should fall upon her to be killed he could not eat a mouthvictim to the demands of hunger.

SHORT SERMONS .- II. OUR OWN OPINIONS.

Every one is blind to his own faults, but alive to the faults of others. We will condemn in others the very things we do ourselves. The likes the churl. The egotist is disgusted with one who is always saying "I." We all think we are right and others wrong; but let us remember, what is obvious to us may be dark to them; what appears truth to us is falsehood to them. They view us as we view them. While we wonder at their stupidity, they are wondering at us. We should make many allowances for education, surrounding influences, prejudices, want of candid investigation. Every one will think as he pleases, and form his opinion as he pleases.

> sented, is all powerful. LATER FROM LIBERIA. - We have the Liberia Herald to the 5th of February.

The annual conference of the Methodist Epis copal Church commenced its session at Monrovia on the 30th of January. The Rev. F. Burns, (colored missionary,) presided. He opened the conference with an impressive address. Great harmony prevalled among the members, and the reports from the several stations were highly satisfactory, showing a considerable increase

during the year.
On the third of February, the anniversary of the Missionary Society was held. Several addresses were made, after which a good collection was taken up—not so large as it would have been had not the members generally been called on recently to subscribe toward the building of a new church, to replace the one that had fallen

The report before us says that up to the time of the meeting of the Conference, the Rev. J. J. Matthews, of New York, was expected to arrive, clothed with superintending powers. That gentleman, however, not being present, the duties of the presiding officer were admirably filled by Mr. Burns. The report closes with the following sentences: "We venture to assert that there are half a dozen others, attached to the same Conference, who would, if placed in the same position, discharge the duties with equal promptness and discretion. Why then the necessity of a superintendent annually from the United States?"

IMPROVEMENTS.—During the year 1850 several substantial buildings have been crected in Monrovia, and others were in the course of erection. Old buildings are being enlarged and repaired. The same remark will apply to the settlements in the interior. Along the banks of the St. Paul all was bustle and activity at the brick-vards. REPORT OF A SLAVER .- Intelligence was re-

ceived at Monrovia that a slave schooner had run in near the coast, a little above Gallenas, and had communication with the shore. The authorities were on the look-out, and communicated with the British squadron on the subject.

HOOSIC MOUNTAIN TUNNEL.-The most stupendous project in the tunnel line which has ever been seriously contemplated in this country, is the perforation of the Hoosic Mountain. near North Adams, Mass., for the passage of the trains of the Troy and Boston Railroad. The length of the proposed tunnel is 24,100 feet, or about four miles and three quarters, and the estimated cost \$1,948,557. Such is the configuration of the mountain, that it is said no shaft can be sunk less than 800 feet in depth. All these persons were arrested during the Consequently it will only be possible to work at pletion of the undertaking. The Massachusetts Senate have passed a law, which is now before the House, to loan to the Troy and Boston Railroad Company \$2,000,000 of State bonds, on condition that certain amounts of money shall be expended by the company previous to the advance of the several instalments of the loan from time to time, which expenditures are to exceed the amount of said advances, until the entire railroad, with the exception of the tunnel, shall be completed; but on this event, the entire amount of stock loaned is to be advanced to the company. The Boston Advertiser calculates that, instead of four or five years, the construction of the tunnel would occupy twenty or thirty years, and that its cost would immensely exceed that above stated.

> JUST DECISION .- In a suit just tried before Judge Lynch, of New York, which was brought and the heavy current setting down the Missisby one of the crew of the American ship "Van- sippi. guard," to recover damages against the captain and mate for flogging the plaintiff on the passage from Liverpool to New York, the court charged that whatever the provocation—and there was none in proof—the act of flogging a seaman on board an American vessel was in direct violation of a statute of the United States, passed September 28th, 1850, by which it is provided, "that flogging in the navy, and on board vessels of commerce, be, and the same is hereby, abolished from and after the passage of said act." He held that the statute subjected the defendants to respond to the plaintiff in damages as fully as if no authority had ever been given by a law to a captain to inflict flog ging on the seamen comprising his crew. Judgment was then given against the mate for ten dollars, and against the captain for one hundred and fifty dollars, for violation of the statute referred to.

rn Journal, speaking of the growth of cities in quarter per hour. the last ten years, says that of the four great eastern cities, New York, Philadelphia, Baltimore, and Boston, the increase of population has been greater in Philadelphia and Baltimore, accordingly, than in New York, and that the business of Boston has increased faster than the population; but it is supposed that this is owing in part to the number of railroads in the vicinity, which enables many doing business in the city to reside at some distance from it. Of the western cities, Pittsburg has increased at the rate of about three hundred per cent., Cincinnati about one hundred and fifty per cent., and St. Louis four hundred per cent. Orleans has increased less in the same time than any other city in the Union.
